Price of right-hand elbow for cable trays

Overview

Buy in bulk around $1.3 cable tray elbows, available in galvanized and stainless steel. Ideal for industrial use and cable management, suitable for wholesalers and distributors.

Key Takeaways

The price of a right-hand cable tray elbow ranges from approximately $1. 30 per piece for bulk industrial options to higher prices for branded, coated steel elbows around £15–£25 depending on size and material.

Pricing Overview

Bulk Industrial Elbows: On platforms like Alibaba, cable tray elbows are available in bulk for around $1. 30 per piece, typically in galvanized or stainless steel, suitable for large-scale industrial installations. Branded Steel Elbows: RS PRO offers high-quality steel elbow covers with HR Zinc, aluminium, and magnesium alloy coatings.

For a 100mm width and 100mm depth elbow, prices are generally higher, reflecting durability and brand reliability. While exact prices vary, similar RS PRO elbows are often in the £15–£25 range per unit depending on specifications and supplier. Material and Coating Impact: Prices vary based on material (galvanized steel, stainless steel, aluminium) and surface treatment (hot-dip galvanization, powder coating), with stainless steel and coated options costing more due to corrosion resistance and longevity.

Additional Considerations

Size Compatibility: Ensure the elbow matches the width and depth of your existing cable tray system. Standard sizes include 50mm, 70mm, 100mm, and 120mm heights. Duty Rating: Heavy-duty elbows for industrial applications are more expensive than light-duty options.

Supplier and Delivery: Prices may vary by supplier, shipping costs, and bulk order discounts.

R

S Online offers next-day delivery for certain products, which may affect total cost. For precise pricing, it is recommended to check suppliers like RS Online for branded elbows or Alibaba for bulk industrial options, specifying the required size, material, and quantity.
