Price of waterproof cable trays in Belgium

Overview

Trayco cable trays, cable ladders and mesh trays | TraycoTrayco is specialised in producing and optimising 100% Belgian Buy Cable tray online Buy high-qual.

Key Takeaways

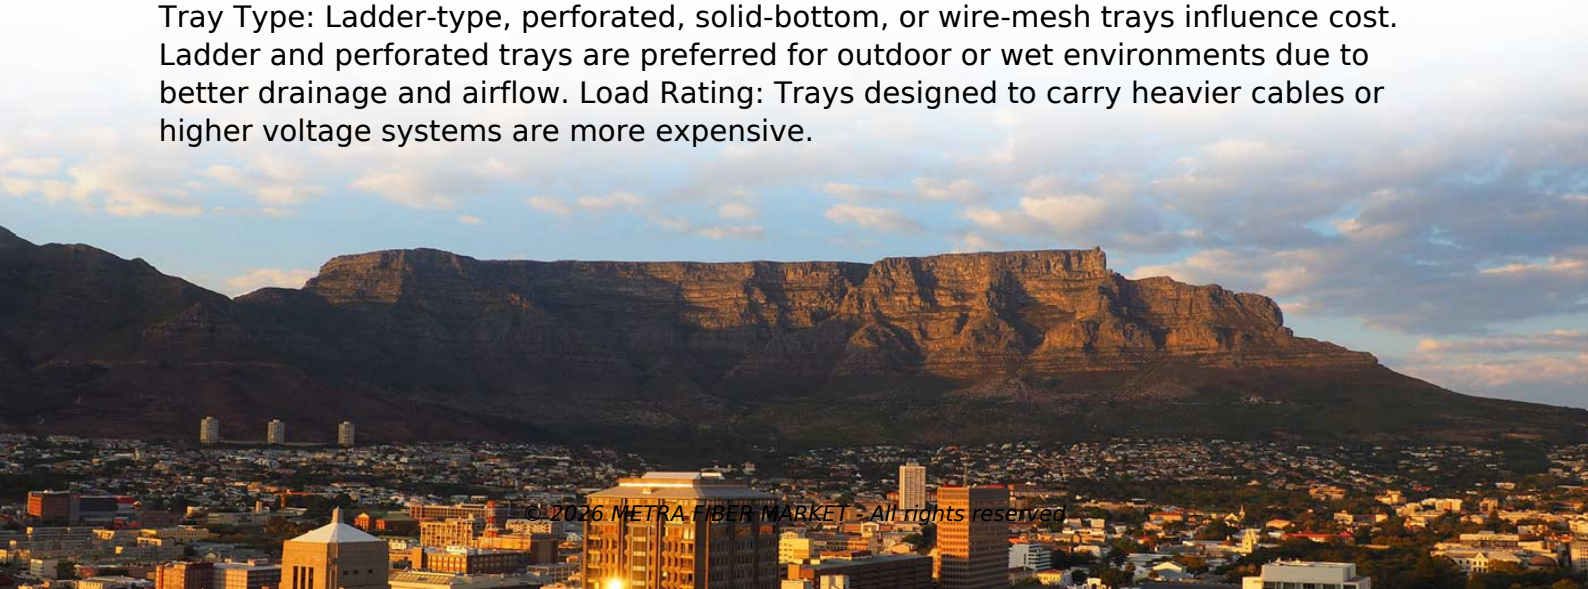

Waterproof cable trays in Belgium typically range from €25 to €150 per meter, depending on material, type, and load capacity.

Price Overview

The cost of waterproof or corrosion-resistant cable trays in Belgium varies based on material, design, and application: Galvanized steel trays: €25–€60 per meter; suitable for outdoor and industrial environments due to corrosion resistance. Stainless steel trays: €70–€150 per meter; ideal for highly corrosive environments such as chemical plants or coastal areas. Fiberglass or composite trays: €50–€120 per meter; lightweight, non-conductive, and resistant to moisture and chemicals.

Factors Affecting Price

Tray Type: Ladder-type, perforated, solid-bottom, or wire-mesh trays influence cost. Ladder and perforated trays are preferred for outdoor or wet environments due to better drainage and airflow. Load Rating: Trays designed to carry heavier cables or higher voltage systems are more expensive.

Length and Customization: Standard lengths are cheaper, while custom sizes or pre-fabricated bends increase cost. Supplier and Service: Belgian suppliers like Trayco, Delaby Electro, and Brilltech Engineers offer tailored solutions, installation support, and compliance with EU standards, which can affect pricing.

Procurement Tips

Request custom quotes from multiple suppliers to compare prices and services. Ensure the trays meet IP ratings or waterproof standards for your specific application. Consider long-term durability and maintenance costs, as higher-quality materials may reduce replacement frequency.

In summary, while basic waterproof cable trays start around €25 per meter, specialized materials and high-load applications can reach €150 per meter or more, depending on specifications and supplier services.
