Prices of different types of outdoor optical cables

Overview

Outdoor Fiber Optic Cable Types Compared: ADSS, Direct-Burial, Compare the four main outdoor fiber optic cable types: ADSS, direct-burial armored, armored.

Key Takeaways

Outdoor optical cable prices vary widely, ranging from $0. 02 per meter for basic bulk cables to $0. 10 per meter for standard single-mode cables, with retail patch cables costing $20–$50 for 10 meters.

Retail Pricing

On Amazon, a 10-meter armored OS2 LC-LC single-mode outdoor fiber optic patch cable typically costs $20–$50, depending on specifications like armoring, fiber type, and bandwidth support.eBay listings for outdoor fiber optic cables show similar retail prices, often with free shipping and occasional discounts for bulk purchases.

Bulk and Per-

Meter Pricing

Suppliers like Hunan GL Technology offer standard single-mode cables at $0. 10 per meter for orders exceeding 10,000 meters. Budget options, such as Zhengzhou Weunion flat cables, can cost as low as $0.

02 per meter when ordering 2,000+ meters. Volume discounts are common, with reductions of 30–70% depending on order size and cable type.

Factors Affecting Price

Fiber type: Single-mode cables are generally more expensive than multi-mode. Protective features: Armored, waterproof, or UV-resistant jackets increase cost. Jacket material: PE, PVC, or LSZH materials affect durability and price.

Core count and cable type: Loose tube, tight-buffered, or ribbon designs influence pricing. Specialized applications: Cables for extreme environments or enhanced fire ratings command premium pricing.

Practical Considerations

Installation costs may add to total expenses, especially for armored or specialized cables. Bulk purchases reduce per-meter costs but require storage and handling planning. Ensure compatibility with existing infrastructure, including connectors and cable diameter.

In summary, outdoor optical cable prices range from a few cents per meter for bulk basic cables to tens of dollars for short, retail-ready patch cables, with final costs influenced by fiber type, protective features, and order volume.
