Custom Engineering and Manufacturing Companies

Interact Power Inc.: Provides custom-fit power distribution solutions, including AC and DC distribution boxes, with a focus on reliability, cost-effectiveness, and expedited production schedules. Custom Manufacturing and Engineering Inc. (CME): Offers complex electrical and electro-mechanical solutions, including control panels and distribution boxes, leveraging over 20 years of engineering expertise. Rockwell Automation: Global leader in industrial automation, delivering high-quality distribution boxes integrated with control and information systems.

Electro Space Fabricators: Specializes in precision metal fabrication and custom distribution boxes, emphasizing design, efficiency, and value. Key Considerations for Choosing a ManufacturerCustomization Capabilities: Ability to design boxes to exact specifications, including IP ratings (IP65–IP68) for dust and water protection. Material Options: Concrete for heavy-load durability or plastic for corrosion resistance and lighter weight.

Certifications and Compliance: ISO, CE, UL, or IEC certifications ensure safety and quality standards. Responsiveness and Support: Manufacturers with rapid communication and technical support are preferred for custom projects. These manufacturers collectively cover a wide range of applications, from residential circuits to industrial automation and renewable energy integration, ensuring that clients can source custom-made distribution boxes tailored to their specific technical and operational requirements.
