Purchase of French Smart Micro-modules

Overview

STMicroelectronics has acquired the assets of Somos Semiconductor, a French maker of silicon power amplifier chips and RF modules. 1 billion) of public money into a factory to make microchips, officials said on Monday, heating up a global race for the lucrative market. Europe and the United States have both passed so-called Chips Acts to boost investment in the sector as fears grow. (Reuters) -Chipmaker STMicroelectronics on Wednesday announced a $60 million investment for its plant in Tours, France, where it plans to develop a pilot line for advanced semiconductor manufacturing technology. The Franco-Italian firm said it will develop the next generations of an advanced. French independent solar power producer TSE has signed a power purchase agreement (PPA) with STMicroelectronics (BIT:STMMI) to supply around 780 GWh of solar power over 15 years to the Geneva-based chipmaker's sites in France. The. Paris, Geneva – January 28, 2025 – TotalEnergies and STMicroelectronics (NYSE:STM), a global semiconductor leader serving customers across the spectrum of electronics applications, have signed a physical 1 Power Purchase Agreement to supply renewable electricity to STMicroelectronics sites in. During a joint press conference at the Ministry of Finance, Finance Minister Bruno Le Maire emphasized the magnitude of the investment, describing it as substantial and massive. 9 billion euros allocated for this project are part of France's larger investment plan of 5.

Somos Semi deal boosts ST''s IoT roadmap ...

STMicroelectronics has acquired the assets of Somos Semiconductor, a French maker of silicon power amplifier chips and RF modules.

France to invest nearly €3 billion in semiconductor factory to boost ...

France is ploughing 2.9 billion euros ($3.1 billion) of public money into a factory to make microchips, officials said on Monday, heating up a global race for the lucrative market.

STMicro to invest $60 million in French plant facing restructuring

(Reuters) -Chipmaker STMicroelectronics on Wednesday announced a $60 million investment for its plant in Tours, France, where it plans to develop a pilot line for advanced

TSE to supply 780 GWh of solar to STMicroelectronics in France

French independent solar power producer TSE has signed a power purchase agreement (PPA) with STMicroelectronics (BIT:STMMI) to supply around 780 GWh of solar power over 15 years

Renewable Power: TotalEnergies Will Supply 1.5 TWh to ...

Starting in 2025, this PPA with TotalEnergies will provide a significant level of renewable energy for ST''s operations in France, which includes R&D, design, sales and marketing and large

France''s Multibillion Investment Propels Crolles

The move by France aligns with similar efforts by the United States and the European Union to reduce dependence on Asian suppliers. Both regions are providing substantial state

STMicroelectronics Acquires Fabless CMOS Power Amplifier & FEM

STMicroelectronics, has acquired SOMOS Semiconductor. SOMOS, based in Marly-le-Roy (France), is a fabless semiconductor company founded in 2018 that specializes in silicon-based

STMicroelectronics and GlobalFoundries Reportedly Halt

In addition to the stalled wafer plant project by STMicroelectronics and GlobalFoundries in France, Bloomberg also reported that Intel''s plan to build foundries in Germany has been put on hold.

GlobalFoundries and STMicro shake on €7.5bn chip facility in

The new facility will benefit from significant financial support from the State of France. The aid measure, in line with the objectives set out in the European Chips Act and part of the ''France

France Smart Power Stage (SPS) Modules Market: Changing

The France Smart Power Stage (SPS) Modules Market is positioned at a pivotal juncture, driven by the increasing integration of renewable energy sources and the need for more efficient power ...

French module makers request permits to build GW-scale panel factories

French PV module manufacturers Carbon and Holosolis said this week that they have both filed requests for construction permits to build 5 GW solar cell and module manufacturing

France Wireless Communication Modules Market Key Highlights

The France Wireless Communication Modules Industry is experiencing steady growth in 2025, supported by strong government policies, rising consumer demand, and advancements in

WebProcure

WebProcure offers best-in-class functionality, reaching end-to-end from requester to procurement buyer to merchant, and all the way back! Designed specifically for the public sector.

France Multichip Modules Market Trends Report: Key ...

The France Multichip Modules Market segmentation analysis provides a detailed view of how the industry is structured across product categories, applications, end-user industries, and

French Semiconductor Success: A Tale of Microwave

Discover the success story of France''s semiconductor industry, a key player in microwave RF innovation and growth, blending technology with global

France Smart Devices Market Report 2026: Growth & Trends

Vietnam has emerged as the dominant manufacturing hub for France''s smart device imports, accounting for $37 million in CIF value for smart home devices (HS codes 8517, 8531) in

STMicro, GlobalFoundries to build French microchip plant, Le Figaro ...

© 2026 METRA FIBER MARKET - All rights reserved

GlobalFoundries Inc and STMicroelectronics will announce on Monday plans to build a semiconductor factory in France for an investment of nearly 4 billion euros, as part of Europe''s efforts

France LTE-M Modules Market Size 2026

The France LTE-M Modules Market in 2025 is characterized by strong competition among the top 10 companies that play a pivotal role in driving innovation, market expansion, and customer
