Cable Tray Wire Supplier & Manufacturer in Qatar We are the leading cable tray & Wire supplier and manufacturer in Qatar and our objective is to offer high.

Key Takeaways

Leading cable tray manufacturers in Qatar include TransDelta International Industries, Advance Line Cable Management System L. L. C, Altura Industries, and Adastra WLL, offering high-quality cable management solutions for industrial, commercial, and residential projects.

Key Manufacturers1.

Trans

Delta International Industries L. L.

C Trans

Delta is a major manufacturer of cable management systems in Qatar and the GCC, operating under the Delta brand. They produce a wide range of products including cable trays, ladders, trunking, flush floor trunking, and underfloor trunking. Their systems are ISO-certified and meet international standards, ensuring safety and reliability.

Trans

Delta serves prestigious projects and provides strategic regional distribution for timely supply and support. 2. Advance Line Cable Management System L.

L.

C Located in Birkat Al-

Awamer, Doha, Advance Line manufactures cable trays, cable ladders, basket trays, strut channels, and GI switch boxes. Their products comply with British standards and are designed for easy installation and durability. Advance Line is notable for producing GI switch boxes at high speed and offers solutions for both industrial and commercial networks.

3. Altura Industries Altura Industries specializes in cable trays, cable ladders, trunking, and wire basket systems. They provide solutions for harsh environments such as petrochemical, marine, and oil and gas industries.

Their products comply with BS EN 61537: 2007 and include GRP/FRP trays for corrosion resistance. Altura also manufactures unistrut channels and accessories for MEP contractors, offering competitive pricing and high-quality standards. 4.

Adastra WL

L Adastra focuses on premium cable mesh tray systems, perforated and solid metal trays, and accessories. Their products support power, control, and communication cables, ensuring safe transportation and distribution. Adastra emphasizes quality, durability, and timely delivery, providing standard 3-meter trays with return flanges and custom designs for industrial, commercial, and residential applications.

Considerations for Selection

Standards Compliance: Ensure the manufacturer meets ISO, BS EN, or other relevant certifications. Material and Environment: Choose GRP/FRP or steel trays depending on corrosive or industrial conditions. Installation and Support: Evaluate ease of installation, availability of accessories, and technical support.

Capacity and Delivery: Consider production scale and regional distribution for timely project completion. These manufacturers collectively cover a wide range of cable management needs in Qatar, from standard industrial installations to specialized projects requiring corrosion-resistant or high-capacity systems.
