

Rack Fiber Optic Terminal Box Price

Overview

Fiber optic terminal box for sale, buy high quality fiber termination box with competitive and reasonable price in Fiberinthebox.

Key Takeaways

Rack-mounted fiber optic terminal boxes typically range from \$50 to \$150 per unit, depending on port count, material, and included accessories.

Pricing Overview12-

Port Rack-

Mounted Fiber Optic Terminal Box: A 12-core rack-mounted box, suitable for SC or LC adapters, with a 24-fiber splice tray and cable management, is priced around \$50-\$80 per unit. This price usually excludes adapters and pigtails, which can be added for an additional cost. 24-Port Rack-Mounted Fiber Optic Terminal Box: Larger 24-port units, often used in high-density data centers or telecom racks, typically cost \$100-\$150, depending on the manufacturer and included features such as pre-terminated pigtails or multiple splice trays.

Material and Build: Most rack-mounted boxes are made of cold-rolled steel with electrostatic or plastic coating, providing durability and protection against environmental factors.

Features Affecting Price

Port Count: More ports increase the cost due to additional adapters and splice trays.
Adapter Type: SC, LC, FC, or ST adapters can influence pricing; pre-installed adapters may add \$10–\$20 per unit.

Pre-

Terminated Pigtails: Boxes pre-terminated with single-mode or multimode pigtails are more expensive than empty boxes.
Rack Size Compatibility: Standard 19" or 23" rack mount units are common; 1U or 2U height affects cost.
Indoor vs Outdoor: Outdoor or harsh-environment enclosures with waterproofing or NEMA ratings are priced higher than indoor units.

Additional Considerations

Bulk Orders: Purchasing multiple units often reduces the per-unit cost.
Shipping and Installation: International shipping or installation services may add to the total cost.
Customization: Some suppliers offer custom configurations, including adapter type, splice tray layout, and pre-terminated cables, which can affect pricing.

For accurate pricing, it is recommended to contact suppliers directly, as costs vary based on configuration, quantity, and shipping location. Suppliers like Fiberinthebox, FS, and LANshack provide detailed product options and quotes for rack-mounted fiber optic terminal boxes.
