Ranking and Prices of Passivated Cable Tray Manufacturers

Overview

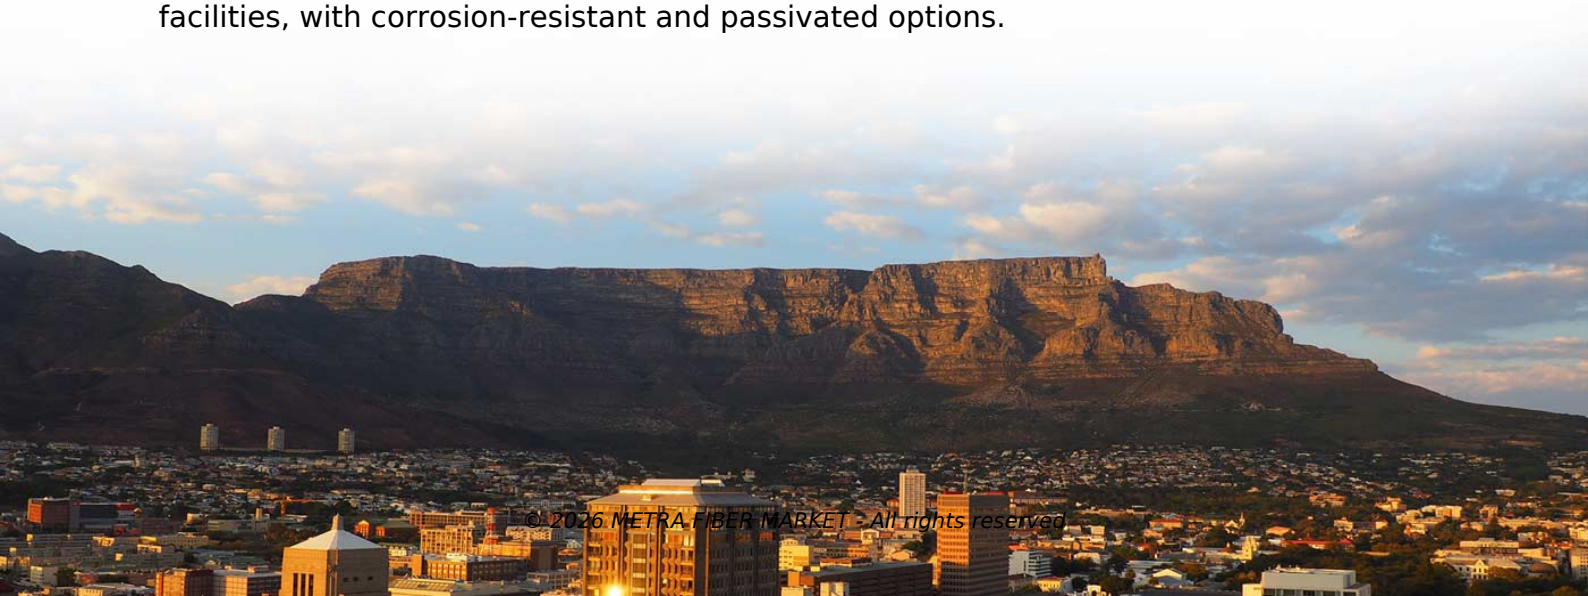

Top 10 Cable Trays Manufacturers And Suppliers | B2B HeadlinesThis list of top 10 online B2B marketplaces and manufacturers will lead you to find your perf.

Key Takeaways

Top manufacturers of passivated cable trays include Atkore, Eaton, Schneider Electric, Legrand, and Icotek, with prices varying by material, type, and customization.

Top Manufacturers

Atkore International (Cope Cable Tray) – A global leader offering durable galvanized and passivated cable trays suitable for industrial, commercial, and petrochemical applications, known for high-quality standards and extensive product lines. Eaton Corporation – Provides comprehensive galvanized and passivated cable tray systems for data centers, manufacturing plants, and utility projects, emphasizing reliability and compliance with safety standards. Schneider Electric – Specializes in robust cable management solutions for industrial environments, including oil & gas and chemical facilities, with corrosion-resistant and passivated options.

Legrand Group – Offers aesthetically designed and durable cable trays, including passivated galvanized systems, suitable for modern infrastructure projects. Icotek (Germany) – Known for innovative smart cable management systems and EMC solutions, providing passivated and corrosion-resistant trays for global industrial applications. Other notable manufacturers – Chalfant Manufacturing, Sunil Engineering Corporation, ELCON Cable Trays, Snake Tray, and Marco Cable Tray Systems, offering a range of ladder, perforated, and wire mesh trays with passivation options.

Pricing Overview

Material and type: Passivated steel trays are generally priced higher than standard galvanized trays due to the additional corrosion-resistant treatment. Ladder and perforated trays are moderately priced, while custom or walkable trays can cost more. Regional variations: Prices vary by region; for example, European manufacturers like Icotek may have higher costs due to precision engineering and compliance with EU standards, whereas Asian manufacturers may offer more competitive pricing for bulk orders.

Estimated range: Standard passivated cable trays typically range from $15 to $50 per meter depending on width, height, and load capacity. Custom or heavy-duty trays can exceed $100 per meter. Accessories such as fittings, junction boxes, and supports are additional costs.

Considerations for Selection

Project requirements: Choose based on load capacity, environmental exposure, and installation type (indoor/outdoor). Supplier reliability: Top-ranked manufacturers like Atkore, Eaton, and Schneider Electric are preferred for large-scale or critical infrastructure projects due to proven quality and global support. Customization and lead time: Some manufacturers offer tailored solutions, which may affect pricing and delivery schedules.

By evaluating these manufacturers and considering material, type, and project-specific requirements, businesses can select the most suitable passivated cable tray solutions while balancing cost and quality.
