Reference Price for Cable Distribution Boxes

Overview

Amazon.com: Cable Distribution BoxCheck each product page for other buying options. This product has sustainability features recognized by trusted certific.

Key Takeaways

Cable distribution boxes typically range from $50 for small indoor units to over $8,000 for large, weatherproof, or industrial-grade enclosures.

Typical Price Ranges

Small indoor boxes (1–8 modules, basic single-phase units) generally cost $50–$500 depending on size and material. Outdoor or weatherproof boxes with IP66/IP67 ratings range from $150 to $2,500, with larger capacities and knockouts for multiple cables commanding higher prices. Industrial or high-capacity units (16–50 sq.mm cable capacity, multi-phase, or modular systems) can cost $3,000–$8,000 or more, especially when equipped with advanced features like surge protection, smart monitoring, or integrated energy management.

Factors Affecting Price

Material and Build Quality: Metal enclosures are generally more expensive than plastic, and weatherproof or corrosion-resistant materials add to the cost. Voltage and Amperage Ratings: Higher voltage or current capacity increases the price due to thicker busbars, insulation, and safety components.

Number of Circuits/

Modules: More circuits or modular slots increase both size and cost. Protection Class (IP Rating): Outdoor-rated boxes with IP66/IP67 protection are pricier than indoor-rated units. Additional Features: Smart monitoring, surge protection, remote control, and energy management systems can significantly raise the upfront cost but offer long-term savings.

Customization: Special mounting configurations, labeling, or integration with building management systems can further influence pricing.

Buying Options

Online Retailers: Platforms like Amazon offer a variety of small to medium-sized distribution boxes with prices starting around $50. Specialized Suppliers: Companies like Intratec and Coloria Group provide a wide range of indoor, outdoor, and industrial boxes with detailed specifications and pricing for professional installations. Price Lists: Supplier catalogs, such as Hensel, provide exact prices for specific models, sizes, and capacities, ranging from $178 to over $8,000 depending on configuration.

When budgeting for cable distribution boxes, consider both the initial purchase price and installation, maintenance, and long-term operational costs, especially for commercial or industrial applications.
