SFP Optical Module Zinc Alloy Housing

Overview

This SFP optical transceiver zinc alloy housing is equipped with an optimized wide anti-slip black pull tab, designed for standard SFP fiber optical modules. Made from high-grade zinc alloy (Zamak 3/Zamak 5), it provides robust mechanical protection, reliable electromagnetic interference shielding and efficient thermal. OEM Customized LC Single-fiber SFP for Bidi Optical Module: Discover a new era of network performance with our bespoke solutions, meticulously crafted for seamless integration into optical link switches and optical modules. These housings are crucial for maintaining the performance and reliability of optical. Modern telecommunications depend on optical module shell module housing as basic building blocks for fast data transfer over great distances. These devices and systems use light to transport data and provide better dependability and bandwidth than conventional copper connections.

Article Content

SFP Optical Transceiver Zinc Alloy Housing With Wide Black Pull Tab

Professional manufacturer of precision SFP zinc alloy transceiver housing with widened anti-slip black pull tab. Excellent EMI shielding & heat dissipation for data center and telecom fiber

High Precision Zinc Alloy SFP Optical Transceiver Housing | Custom

Professional manufacturer of zinc alloy SFP optical transceiver housings. Custom precision die casting parts with excellent EMI shielding, heat dissipation and corrosion resistance for

© 2026 METRA FIBER MARKET - All rights reserved

High-Quality Zinc Alloy Optical Module Housing for SFP

As an SFP optical module housing industry benchmark, our zinc alloy die-casting technology ensures efficiency and precision for demanding communication equipment.

High-Quality Zinc Alloy Optical Module Housing for SFP

By merging cutting-edge automated CNC machining with the economical zinc alloy die-casting process, we offer premium solutions that strike the perfect balance between cost and quality.

SFP+SC Housing Standard Fiber Optical Module

The SFP+SC Housing encompasses the physical and mechanical features that house the optical and electrical components of a SFP+SC transceiver module.

Precision Die Casting SFP Housing: A Closer Look

The SFP housing is a crucial part of optical transceiver modules used in data communication applications. It provides the mechanical structure and

Gigabit Zinc Alloy Hot Chamber Die Castings Housing SFP Optical Module ...

As an SFP optical module housing industry benchmark, our zinc alloy die-casting technology ensures efficiency and precision for demanding communication equipment.

SFP Transceiver Housing

Discover SFP transceiver housing with EMI shielding, zinc alloy construction, and support for data communications & base transceiver station applications.

MINI SFP Housing Customized Optical Transceiver Case

MINI SFP Housing, is a protective casing designed to hold and protect optical modules used in various communication and networking applications.

SFP SC Housing MSA Compatible SFP Module Case

The SFP housing is made from zinc alloy die casting, it have higher thermal conductivity, intensity and consistency. The shield use SUS304 stainless steel

Premium Zinc Alloy Optical Module Housing for SFP, XFP, Qsfp ...

Tailored meticulously for Bidi Optical Modules, Optical Link Switches, and Optical Modules, this product embodies innovation and precision.Optical modules feature Zinc alloy casting housing components,

Mwdm SFP28 Die Casting Housing for Optical Module

© 2026 METRA FIBER MARKET - All rights reserved

Since established in 2002, Shenzhen Aoli Casting Hardware Products Co., Ltd has been grown from a professional zinc alloy die-casting manufacturer to a professional enterprise engaged in

Zinc alloy SFP optical module housing

China Zinc alloy SFP optical module housing catalog of SFP-RJ45 Interface Housing - Zinc Alloy High-Precision Die-Casting Parts, RJ45 Interface SFP Optical Module Housing - Zinc Alloy Die-Casting

Custom Die Casting For Optical Communication | GuangWei

In the world of optical communication and data centers, every micron of precision matters. At Dongguan GuangWei Communication Technology Co., Ltd., we engineer high-precision zinc and aluminum

SFP HDBNC Housing Customized Optical Transceiver

Optical module housing, also known as transceiver housing or optic module enclosure, is a protective casing designed to hold and protect optical modules

Premium Zinc Alloy Optical Module Housing Kit for SFP

Zinc alloy casting for custom ODM optical module housing: SFP, XFP, QSFP - Meticulously engineered and exquisitely crafted, our zinc alloy castings offer perfect solutions for custom optical module

Zinc Alloy SFP Transceiver Housing with Blue Pull Tab | Custom Die ...

Professional factory custom zinc alloy SFP transceiver shell with blue pull tab. High precision die casting parts with EMI shielding for data center and telecom fiber optical modules,

Longger SFP+ Housing MSA Compatible Transceiver

Longger SFP+ Housing, is a protective casing designed to hold and protect optical modules used in various communication and networking applications.
