Selling price of galvanized cable trays in Romania

Overview

romanian-galvanized-cable-tray-price-quote Manufacturer/Producer20 suppliers for romanian-galvanized-cable-tray-price-quote Manufacturer/Producer Find whol.

Key Takeaways

Galvanized cable trays in Romania typically range from €15 to €50 per meter, depending on type, size, and material thickness.

Overview of Galvanized Cable Trays

Galvanized cable trays are widely used in industrial, commercial, and civil construction projects to support and organize electrical cables. They are made from galvanized steel sheets, often perforated or embossed, providing corrosion resistance, durability, and load-bearing capacity. Common types include ladder trays, perforated trays, and solid-bottom trays, with ladder trays being particularly popular for heavy-duty applications.

Factors Affecting Price

Material Thickness: Standard galvanized trays are produced with sheet thicknesses ranging from 1. 0 mm to 2. 0 mm.

Thicker sheets increase durability but also cost more. Tray Width and Height: Widths typically range from 50 mm to 600 mm, and heights from 35 mm to 100 mm. Larger dimensions increase material usage and price.

Tray Type: Ladder trays are generally more expensive than perforated or solid trays due to higher material and manufacturing requirements. Surface Treatment: Hot-dip galvanization provides superior corrosion resistance compared to electro-galvanized trays, which can slightly increase the price. Customization: Custom lengths, bends, tees, and other accessories can add to the overall cost.

Typical Price Range

Standard perforated or solid trays: €15–€25 per meterLadder-type galvanized trays: €25–€50 per meterCustom or heavy-duty trays: Prices may exceed €50 per meter depending on specifications and certifications. Suppliers in RomaniaRED Metal (Bucharest) offers a variety of galvanized cable trays with fast delivery and European quality standards. Brilltech Engineers Pvt.

Ltd. supplies hot-dip galvanized ladder trays and perforated trays, with customization options for industrial and commercial projects. Wire Meshes / Jeetmull Jaichandlall (P) Ltd. provides galvanized trays in multiple sizes and shapes, emphasizing durability and compliance with industry standards. Royal Expert Design (RED) manufactures trays with galvanized metal sheets of 275–500 gr/m², suitable for industrial installations.

Recommendations

Request quotes from multiple suppliers to compare prices and delivery options. Confirm material thickness, type, and certifications to ensure compliance with project requirements. Consider bulk orders for cost savings, as many suppliers offer discounts for larger quantities.

By considering these factors, you can select the most suitable galvanized cable tray for your project while staying within budget.
