Singapore Fiber Optic Terminal Box 2-core

Overview

Product use: for home or work area, complete access and twin core fiber output port, can fully meet the fiber bend radius, and protect access to fiber, to provide security for the core protection.

Key Takeaways

A 2-core fiber optic terminal box in Singapore is typically a compact, wall-mounted box designed for FTTH applications, supporting SC, FC, or LC connectors, with dust-proof and fire-resistant features.

Key Features

Core Capacity: Designed for 2-core fiber termination, suitable for home or office FTTH, FTTO, or FTTD applications. Material: Made from high-quality ABS or polycarbonate (PC) with flame-retardant properties, providing fire resistance and durability. Dimensions: Commonly compact, e.g., 86 x 115 x 23 mm, suitable for embedded surface installation.

Connector Compatibility: Supports SC, FC, LC, or E2000 adapters, allowing flexible connection to fiber optic pigtails or patch cords. Protection: Equipped with dust-proof covers to prevent contamination and maintain signal integrity. Some models offer IP65 waterproofing for outdoor or harsh environment use.

Installation: Typically wall-mounted or desktop, with embedded or surface-mounted options for easy deployment. ApplicationsFTTH Networks: Provides secure fiber termination for residential or small office setups. Telecommunication Networks: Suitable for local area networks and CATV distribution.

Data Communication: Ensures proper fiber management and protection in indoor environments.

Local Suppliers in Singapore

Shopee Singapore: Offers 2-core FTTH fiber optic terminal boxes with SC/FC/LC ports, minimum purchase quantity of 4 units. Norden Communication: Provides IP65-rated fiber distribution boxes suitable for outdoor wall or pole mounting. Nagashima: Supplies modular 2-core fiber termination boxes with SC duplex ports and splice trays for flexible installation.

Considerations

Ensure the box supports the required connector type for your network. For outdoor installations, choose IP65-rated boxes to protect against dust and water ingress. Check the maximum fiber capacity if future expansion is anticipated.

This 2-core fiber optic terminal box is ideal for compact, secure, and efficient fiber termination in Singapore's residential and small office networks, providing both protection and easy access for maintenance.
