Single-channel adjustable light attenuator

Overview

The 0~40dB Single-Channel MEMS Variable Optical Attenuator is an optical device based on Micro-Electro-Mechanical Systems (MEMS) technology, capable of precisely adjusting the optical signal strength within a range of 0 to 40dB for a single channel. for achieving a suitable signal level for a data receiver in a telecom system. Usually, such attenuators either have a housing equipped with some type of fiber connectors (e. Plug-type female-male design with SC/APC interface. Supports single mode and multimode fiber systems for network testing, FTTH optimization, and laboratory applications. Our male-to-female buildout optical attenuation (Pads) are available. We offer the industry's most extensive selection of fiber variable optical attenuators (VOAs), addressing all application scenarios with best-in-class performance and value.

Fiber-optic Attenuators – fixed or variable attenuation, working ...

Wavelength DependencePolarization DependenceReciprocityPrecision of LossReturn LossCustom VersionsFor many applications, it will not be a problem if the obtained insertion loss slightly deviates from the specification (e.g. by 1 dB), or if it slightly changes over time. Example cases, however, one may require a higher precision.See more on rp-photonics FS

Customised Single-Channel Standard MEMS Variable Optical

© 2026 METRA FIBER MARKET - All rights reserved

Buy customised single-channel standard MEMS variable single mode fibre optic attenuator from reliable fibre optics supplier - FS , same-day shipping.

Variable Fiber Optic Attenuator — Adjustable | TTI

Variable (adjustable) fiber optic attenuator with continuous attenuation control for precise optical power management. Plug-type female-male design with SC/APC interface. Supports single mode and

Attenuators | Fibertronics, Inc.

Our in-line attenuator is customized to match the desired length and connector type specified by customers. The adjustable attenuator utilizes an air gap mechanism to regulate the attenuation value

Fiber Optical Variable Attenuators

We offer the industry''s most extensive selection of fiber variable optical attenuators (VOAs), addressing all application scenarios with best-in-class performance and

LBTEK-Single-mode Fiber Adjustable Attenuator

LBTEK offers single-mode adjustable attenuators for various wavelengths. Each attenuator incorporates two lenses and an adjustable occluding element: one lens collimates the input light from the fiber,

Optical Attenuators, Fixed & Variable Available

FS fixed and variable fiber optic attenuators with leading attenuating fibers guarantee consistent and stable fiber attenuation (0~60dB) in WDM transmission.

Fiber Optic Attenuators | Optoelectronics | DigiKey

Shop DigiKey''s large in-stock selection of Fiber Optic Attenuators. View inventory, pricing and order now for same day shipping!

Fiber Optic Attenuators

Thorlabs has a wide variety of single mode (SM), polarization-maintaining (PM), or multimode (MM) fixed and variable optical attenuators (VOAs). We offer SM and

Everything You Need to Know About Fiber Attenuators

A Fiber Attenuator is a device used in the field of optical communications, specifically designed to reduce the power level of an optical
