# Smart PDU Vanuatu Manufacturer

## Overview

Vanuatu Intelligent PDU Market (2025-2031) | Analysis & Companies6Wresearch actively monitors the Vanuatu Intelligent PDU Market and publishes its comprehe.

## Key Takeaways

NETIO products, a Czech manufacturer, supplies smart PDUs to Vanuatu, while local integrators like Cetelnet and SPIM LTD provide installation and support services.

### International PD

U Suppliers Serving VanuatuNETIO products is a Czech company specializing in smart PDUs, power strips, and power cables that can be controlled over LAN and WiFi. Their offerings include models like the NETIO PowerPDU 4KS, which features metered and switched power outputs and digital inputs, making it suitable for industrial, commercial, and remote monitoring applications in Vanuatu. These products are designed for real-time energy management and can integrate with smart grid systems.

### Local Integrators and Service Providers

While Vanuatu does not have a widely reported domestic PDU manufacturer, several local companies provide smart energy solutions and PDU integration: Cetelnet offers smart grid integration, including SCADA systems, load management, and remote monitoring. They partner with global technology providers to supply standards-compliant smart PDUs and other energy management hardware. Their services cover urban centers like Port Vila and remote islands, ensuring reliable power distribution and monitoring.

### SPIM LT

D is a Vanuatu-based company that may provide access to smart energy equipment, including PDUs, as part of broader energy solutions. Better Energy focuses on solar installations and hybrid systems, and while primarily a renewable energy provider, they may integrate smart PDUs into their energy management systems for homes and businesses.

### Considerations for Procurement

When sourcing smart PDUs in Vanuatu: Compatibility: Ensure PDUs support LAN/WiFi control and integrate with existing SCADA or energy management systems. Support and Maintenance: Partnering with local integrators like Cetelnet or SPIM LTD can provide installation, monitoring, and ongoing support. Scalability: Choose PDUs that can handle future expansion, including renewable energy integration and load management.

By combining international PDU products with local expertise, businesses and utilities in Vanuatu can implement reliable, remotely controllable power distribution systems suitable for industrial, commercial, and off-grid applications.
