Source Manufacturer of Fiberglass Cable Trays in Australia

Overview

XFibreTray The cable trays manufactured by us are from pultruded sections / profiles of fiberglass, this pultruded sections help in reducing cost, achievin.

Key Takeaways

Ferrotech Pacific and FIBRETRAY are among the top Australian manufacturers of high-quality fiberglass cable trays, offering durable, corrosion-resistant solutions for industrial and commercial applications.

Leading Australian Manufacturers

Ferrotech Pacific is a Melbourne-based company specializing in FRP (fiberglass-reinforced plastic) gratings and cable trays. Their products are designed to withstand harsh Australian conditions, including UV exposure, salt, and heavy loads. Ferrotech's trays are fire-resistant, non-conductive, and compliant with Australian standards, making them suitable for mining, oil and gas, and industrial projects.

They provide end-to-end solutions, including handrails, stair treads, and complete FRP walkway systems.

FIBRETRA

Y focuses on fiberglass-reinforced plastic (FRP) cable trays engineered for anti-corrosion, high strength, and flame retardance. Their trays are lightweight yet durable, with a service life 5–6 times longer than steel equivalents.

FIBRETRA

Y offers both polyester and vinyl ester resin systems, pultruded sections, and a full range of accessories, making them ideal for power plants, chemical plants, and other critical environments. Their products are designed for overhead, floor, or wall-mounted installations, providing flexibility for diverse project requirements.

Other Notable Manufacturers

While companies like EzyStrut, Burndy CSS, Axelent, Brilltech, and Ozstrut are recognized for cable management solutions in Australia, their focus is broader and includes metal and wire mesh trays. For projects specifically requiring fiberglass-reinforced trays, Ferrotech Pacific and FIBRETRAY are more specialized and widely recommended.

Key Considerations

When selecting a fiberglass cable tray manufacturer in Australia, consider: Material quality and corrosion resistance for harsh environmentsCompliance with Australian standards for safety and fire performanceProduct versatility including pultruded sections, molded fittings, and accessoriesEase of installation and local availability to minimize lead times Both Ferrotech Pacific and FIBRETRAY excel in these areas, making them top choices for reliable, long-lasting fiberglass cable tray solutions in Australia.
