

Suppliers of galvanized straight-through cable trays

Overview

Eurostrut Cable Trays | cable tray, cable route and NATO tray Cable trays for industrial and marine use. Includes distribution trays, cable routes and NATO.

Key Takeaways

Leading manufacturers of galvanized straight-through cable trays include NewReach, Spina Group, Eurostrut, ABB, and Jiangsu Holdee Electric Co., Ltd., offering durable, corrosion-resistant solutions for industrial applications. Key Manufacturers and Offerings¹.

New

Reach New

Reach specializes in galvanized cable trays designed for strength and durability, supporting heavy cable loads without sagging or deformation. Their trays are made from steel with a zinc coating, providing excellent corrosion resistance, especially in damp or chemically harsh environments. Available in ladder-type, solid bottom, wire mesh, and perforated styles, these trays can be customized in size and configuration.

Hot-dip galvanizing is commonly used to ensure long-term durability and compliance with industry standards, making them suitable for industrial and high-risk environments. 2. Spina Group (Schiavetti Tekno) An Italian manufacturer, Spina Group offers hot-dip galvanized ladder cable trays and other types, including perforated and closed-bottom trays.

Their products are designed for industrial plants, ensuring electrical continuity, thermal expansion management, and compatibility with accessories like elbows, junctions, and covers. They provide custom sizes and comply with European (EN) and international (UL) standards, making them suitable for demanding industrial installations. 3.

Eurostrut Eurostrut provides hot-dip galvanized steel cable trays suitable for indoor and outdoor applications. Their trays are designed for fast installation, flexible configurations, and safe cable management. They offer various widths, heights, and types, including open and perforated designs, which help prevent overheating and ensure organized cable routing.

Eurostrut also supplies cable trays for industrial and marine use, including NATO-type models. 4.

ABB AB

B manufactures a wide range of cable tray systems, including perforated trays, cable ladders, and channel trays. Their galvanized trays are produced in Canada and Saudi Arabia, supporting medium to ultra-heavy-duty applications.

AB

B emphasizes reliability, adaptability, and ease of maintenance, ensuring long-lasting performance for industrial installations. 5. Jiangsu Holdee Electric Co., Ltd.

Holdee offers straight galvanized steel through-type cable trays with covers, available in hot-dip galvanized, electro-galvanized, and powder-coated finishes. Their production capacity exceeds 30,000 tons annually, and they provide global export services. Holdee trays are suitable for oil, gas, chemical, machinery, power, transportation, military, aviation, and shipbuilding industries.

They also offer ISO9001, ISO14001, ISO45001, 3C, and EU CE certifications, ensuring high-quality and compliant products.

Considerations for Selection

Material and Coating: Hot-dip galvanized steel is preferred for corrosion resistance and long-term durability. **Tray Type:** Ladder, perforated, solid bottom, or wire mesh depending on ventilation, load, and environmental requirements. **Customization:** Many manufacturers offer custom widths, lengths, and thicknesses to meet project-specific needs.

Certifications: Look for ISO, UL, EN, or CE certifications to ensure compliance with safety and quality standards. **Installation and Accessories:** Consider compatibility with elbows, junctions, covers, and supports for modular and secure installation. These manufacturers provide reliable solutions for industrial, commercial, and marine applications, ensuring safe, durable, and efficient cable management.
