Syrian fiber optic cable manufacturer

Overview

Syria Cables was founded in 1991 and brings over 30 years of experience in manufacturing high-quality electrical cables that meet global standards.

Key Takeaways

Syria Cables, Alawal Cables, and OSC are leading Syrian manufacturers and providers of fiber optic and network cables.

Key Manufacturers

Syria Cables Founded in 1991, Syria Cables is one of the largest and most established cable manufacturers in Syria. They produce fiber optic cables, electrical cables, and control/alarm system cables for industrial, residential, and commercial applications. Their products are designed with advanced shielding, fire safety, and environmental resistance, making them suitable for high-performance and industrial-grade applications.

Alawal Cables Based in Aleppo, Alawal Cables specializes in insulated and electrical cables for both industrial and residential projects. They are recognized for providing top-grade cable solutions and have a strong presence in the Syrian market.

OS

C (Optical Systems Company) OSC focuses on fiber optic network projects and IT infrastructure. They provide supply, installation, and maintenance of wired, wireless, and optical networks, including LAN, WAN, and GPON systems.

OS

C has executed large-scale projects such as connecting university campuses via optical networks and supplying over 500,000 ADSL ports and 100,000 GPON ports in collaboration with the Syrian Telecommunications Company.

National Fiber Infrastructure

Syria is actively expanding its Fiber-to-the-Premises (FTTP) network under the BARQ NET initiative, covering all 14 governorates. The Ministry of Communications and Information Technology (MoCT) invites qualified companies to deploy and operate passive fiber infrastructure, often contracting local Syrian companies for civil works and installation. This initiative provides opportunities for manufacturers and network providers to participate in nationwide broadband deployment.

Additional Notes

While some international suppliers like ETK Kablo and WAVETEL provide fiber optic solutions to Syria, the primary local manufacturers remain Syria Cables, Alawal Cables, and OSC, offering both production and installation services for fiber optic and network cables. These companies collectively cover manufacturing, installation, and maintenance, making them key players for anyone seeking fiber optic or network cable solutions within Syria.
