

Tfn full-featured optical power meter

Overview

The TFN FB-12 series is an innovative, portable test instrument combining an optical power meter and a stabilized light source.

Key Takeaways

The TFN optical power meter is a versatile, portable fiber optic tester combining an optical power meter, visual fault locator, and LED light for accurate field measurements and troubleshooting. Key Features Multi-functionality: TFN optical power meters integrate three tools in one device: an Optical Power Meter (OPM) for measuring optical signal strength, a Visual Fault Locator (VFL) for detecting fiber breaks or bends, and a high-brightness LED light for working in dark environments. Measurement Accuracy: Equipped with an InGaAs detector, the OPM provides precise readings from -70 dBm to +10 dBm with ± 0 .

2 dB accuracy at key wavelengths like 1310 nm and 1550 nm. Some models support dual display modes, showing both linear (mW) and logarithmic (dBm) values simultaneously for convenience. Wavelength Support: TFN meters cover a wide range of wavelengths, including 850 nm, 980 nm, 1300 nm, 1310 nm, 1490 nm, 1550 nm, 1625 nm, and 1650 nm, making them suitable for most fiber optic systems.

Portability and Power: Compact and lightweight, these meters are designed for fieldwork. They typically feature a rechargeable 1800 mAh battery lasting over 6 hours, with Type-C charging for convenience. Some mini models can operate up to 72 hours using AAA or lithium batteries.

User-

Friendly Operation: Devices include a sunlight-readable LCD screen, one-touch wavelength switching, backlight, and auto-shutdown for energy saving.

The VF

L emits a red light up to 10 km (V10T model) to locate faults quickly. Additional Functions: Certain models support RJ45 network cable testing, one-touch reference setting for insertion loss tests, and optional flashing modes for fiber identification in low-light conditions. ApplicationsTFN optical power meters are ideal for fiber optic installation, maintenance, and troubleshooting in telecom, data centers, and industrial networks.

They allow technicians to measure optical power, detect faults, and work efficiently in the field without carrying multiple devices.

Summary

The TF

N optical power meter is a cost-effective, compact, and multifunctional tool for professionals working with fiber optics. Its combination of accurate power measurement, visual fault detection, and portable design makes it suitable for both indoor maintenance and outdoor fieldwork, supporting a wide range of wavelengths and providing long battery life for extended use.

On Sale TFN FB-12 Optical Power Meter with Light Source

The TFN FB-12 series is an innovative, portable test instrument combining an optical power meter and a stabilized light source. It's efficient and convenient for fiber optic network installation, maintenance,

TFN F-D1 SM/MM 850/1300/1310/1550nm Light Source FTTH OPM

Accurate Measurement for FTTH Applications: The TFN F-D1 Optical Power Meter is designed for use in FTTH (Fiber-To-The-Home) applications, ensuring accurate measurements for users like you who

TFN 3-in-1 Fiber Optic Tester, 10KM Visual Fault Locator, Optical

It integrates an Optical Power Meter (OPM), Visual Fault Locator (VFL), and LED light into one handheld device, providing unmatched convenience for testing, maintenance, and fault detection in fiber

TFN 8-Inch Touchscreen OTDR, 1310/1550nm Dual Wavelength Fiber

TFN OTDR Optic Fiber Tester Instrument is engineered for telecommunications professionals who require precise analysis and troubleshooting of single-mode fiber networks. Its core functionality is

Fibre Optic Power Meters for Fibre Optic Test

FS offers a range of fibre optic power meter, choose from a variety of cost-effective optical power meters. Money Back Guarantee.

TFN Portable Fiber Optic Tester, 10KM Visual Fault Locator Optical ...

Product Description This 3-in-1 fiber optic tester combines an optical power meter, visual fault locator and LED flashlight in one compact tool. It supports multiple wavelengths and long-distance red light

On Sale TFN FB-12 Optical Power Meter with Light Source

The TFN FB-12 has an optical power meter and a light source. It's convenient for fiber optic network installation, maintenance, and troubleshooting. In stock!

TFN 3-in-1 Fiber Optic Tester, 30KM Visual Fault Locator, Optical Power ...

The 3-in-1 Fiber Optical Cable Tester is a professional-grade tool designed for fiber optic engineers and technicians. It integrates an Optical Power Meter (OPM), Visual Fault Locator (VFL), and LED light

TFN Fiber Optic Tester VFL OPM Portable Visual Fault Locator & Optical ...

The optical power meter also incorporates a powerful and versatile LED light function. This combined optical power meter and red light pen features a built-in 1800mAh high-capacity lithium

TFN 3-in-1 Fiber Optic Tester, Portable Optical Power Meter ...

About this item □3-in-1 Multifunctional Tester□The fiber optic tester integrates three main functions: an optical power meter (OPM), a visual fault locator (VFL), and an LED light, making

TFN 3-in-1 Fiber Optic Tester, 30KM Visual Fault Locator, Optical Power ...

[High Power and Long Range] Features a VFL with up to 30km detection range, ensuring precise fault location even over long distances, and supports 10 wavelength options including.

TFN Fiber Optic Tester Portable Optical Power Meter 10mW 10km

Powerful Fiber Optic Cable Tester This is a 3-in-1 multifunctional fiber optic test pen, which includes three functions of optical power meter, visual troubleshooter and LED light.

Portable Fiber Optic Cable Tester TFN Fiber Optic Tester

Network technicians and fiber optic installers, this TFN 3-in-1 tester is seriously handy for all your fiber work! This little device combines an optical power meter, visual fault locator, and LED flashlight all in

TFN VFL&OPM 5/10/20/30/50KM Visual Fault Locator Fiber Optical Power ...
