Thailand SN Connector Smart Type

Overview

Spec Sheet One of those new technologies being deployed are Very Small Form Factor (VSFF) fiber connectors. One version of VSFF connectors is the SN connec.

Key Takeaways

The SN Connector is a Very Small Form Factor (VSFF) duplex optical connector, while the Smart Type refers to compact, durable pneumatic fittings available in Thailand.

S

N Connector (Fiber Optic)The SN connector, developed by SENKO, is a ceramic-based, VSFF duplex optical connector designed for high-density fiber cabling in data centers and telecom networks. Key features include: Compact Design: Uses 1. 25mm ferrule technology similar to LC connectors but with a smaller footprint, allowing up to three times the packing density.

High-

Speed Compatibility: Supports 400G, 800G, and 1. 6TB transceivers, compatible with QSFP-DD, OSFP, and SFP-DD modules. Flexible Connectivity: Offers Base-2 and Base-8 configurations, enabling connections to multiple transceivers without cassettes or fan-outs.

EZ-Flip Feature: Field-configurable polarity allows technicians to reverse polarity on-site without fiber disruption, simplifying installation and reducing inventory complexity.

High-

Density Panels: Up to 400 fibers in a 1RU patch panel using SN adapters, with push-pull boot design for easy insertion and removal.

The S

N connector is standardized under IEC 61754-36 as SAC connector and is available in single-mode and multimode versions with PC 0° and APC 8° ferrule cuts. Smart Type (Pneumatic Fittings)The Smart Type fittings from KOGANEI Thailand are compact, quick-connect pneumatic fittings designed for industrial applications. Key aspects include: Outstanding Operability: Quick fitting mechanism allows easy installation and removal.

Durability: Maintains reliable performance under repeated use. Compact Configuration: Optimized for space-saving setups while retaining full functionality. Versatile Lineup: Available in multiple sizes and configurations to suit various pneumatic systems.

SummarySN Connector: Ideal for high-density fiber optic networks, data centers, and telecom hubs, offering high-speed connectivity, compact form factor, and field-configurable polarity. Smart Type Fittings: Suitable for industrial pneumatic systems in Thailand, providing compact, durable, and easy-to-use quick-connect solutions. Depending on your application—optical networking or pneumatic systems—you would select the SN connector or the Smart Type fitting accordingly.

Both are designed to maximize efficiency and space utilization in their respective fields.

SN Connector Assembly

The SN connector is one of the VSFF solutions to increase density for duplex connections. The SN connector makes use of the small 1.25mm ferrule used in

SN Connectors

Network operators benefit from a threefold improvement in packing density over the whole network as a result of the smaller footprint. The SN connector, which

List of Connectors & Terminals Companies in Thailand

Thai Summit Harness is a member of Group, the largest auto parts manufacturer in Southeast Asia. We have worldwide manufacturing, sales and service infrastructure we serve diverse customer base with

SN® STANDARD CONNECTOR

Discover the SENKO SN® Standard Connector—a compact, high-density fiber optic connector designed for modern data centers. Features include a push-pull boot

SN-MT Connector Assembly

Explore our fixturing and tooling solutions for SN-MT connector (VSFF) assembly, for efficient termination and assembly in hyperscale data centers.

SENKO SN® EZ-Flip Connector

The SN® EZ-Flip Connector combines a compact VSFF duplex form factor with a field-configurable polarity mechanism that allows on-site polarity reversal for both

Connectors: Wire Connectors and Electrical Connectors

Across our portfolio, you can find different types of electrical connectors including electrical wiring connector types and cable connector types. Our connectors are

SN® Connector | FO Connector

SN Connector The SN (Senko Nano) is a genuine push-pull-boot duplex plug connector manufactured using 1.25 mm fully-ceramic ferrule technology. It belongs to the category of Very Small Form Factor

800G 1.6TB 3

The SN® Compact Connector features a latch-locking mechanism to confirm engagement with the adapter and uses industry-standard 1.25 mm ferrule technology that has been used in LC connectors

What Is Senko SN Connector
