US Wall-Mounted Network Cabinet Manufacturer

Overview

Wall Mount Racks and Cabinets | Racks and Physical SupportOur wall mount cabinets are an ideal solution for environments where floor space is at a premium.

Key Takeaways

Top U. S. manufacturers of wall-mounted network cabinets include Legrand, Chatsworth Products, RackSolutions, APC, Martin Enclosures, and American Products.

Leading Manufacturers and Their Offerings

Legrand offers the Vertical Wall-Mount (VWM) and Swing-Out Wall-Mount (SWM/SWMR) series, designed for edge computing, small network closets, and retail environments. Their cabinets feature locking doors for PCI compliance, support 4RU to 8RU of equipment, and provide flexible mounting options for connectivity and power management. Chatsworth Products (CPI) manufactures the VersaEdge™, CUBE-iT®, and ThinLine II wall-mount cabinets.

These enclosures are scalable, modular, and optimized for edge and data center environments. They include adjustable rails, advanced thermal management, and swing-out designs for easy access in space-constrained areas.

Rack

Solutions specializes in high-quality server racks and network cabinets, offering standard 19-inch racks and custom solutions. They provide rapid customization to meet specific installation requirements and collaborate with major OEMs for versatile deployment.

AP

C produces wall-mounted server racks and enclosures with integrated power distribution units (PDUs) and thermal management, suitable for small data closets and edge computing applications. Martin Enclosures manufactures U. S.-made server racks and cabinets in New Hampshire, emphasizing flexibility, durability, and scalability.

Their products are ISO 9001 certified and can be fully customized from concept to deployment. American Products provides U. S.-made telecom enclosures, NEMA cabinets, and outdoor shelters, compliant with BABA standards for telecom, energy, and data center applications.

Key Considerations

Customization: Many manufacturers, such as Martin Enclosures and RackSolutions, allow full customization of dimensions, mounting options, and accessories. Compliance and Security: Cabinets often include locking doors and PCI compliance features for secure installations. Thermal Management: Advanced airflow and fan kits are available to support high-density equipment.

Distribution: Companies like Chatsworth Products sell through authorized distributors, ensuring local availability and support. These manufacturers provide reliable, U. S.-made solutions for wall-mounted network cabinets suitable for enterprise, retail, educational, and edge computing environments.
