

Uganda Explosion-proof Distribution Box Suppliers

Overview

Vakineva Box & Bag, as your most reliable partner in box production and packaging solutions, has a weekly production capacity of 10,000-15,000 folding boxes and 50,000 cardboard boxes.

Key Takeaways

Explosion-proof distribution boxes in Uganda are available from certified manufacturers compliant with IEC, ATEX, and IECEx standards, suitable for hazardous industrial environments.

Key Manufacturers and Suppliers in Uganda

Warom Group – Specializes in explosion-proof electrical equipment including distribution boxes, control equipment, and lighting. Their products comply with IEC, ATEX, and IECEx standards, making them suitable for petroleum, chemical, marine, and mining industries. Hexlonex – Offers durable explosion-proof distribution boxes and electrical enclosures certified for Zone 1 and Zone 2, meeting IECEx and ATEX requirements.

Local B2

B Suppliers – Platforms like Europages and Amin.ug list multiple Ugandan suppliers and manufacturers of explosion-proof enclosures and distribution boxes, providing options for custom sizes, quantities, and delivery across Uganda. Standards and Compliance IEC 61439-1: International standard for low-voltage switchgear and controlgear assemblies, often applied to explosion-proof distribution boxes.

ATE

X Certification: Required for equipment used in explosive atmospheres within the EU and recognized internationally.

IEC

Ex Certification: International certification for equipment used in hazardous areas, ensuring safety and reliability.

CENELEC and NE

C Zones: Some products also comply with European and North American hazardous area classifications. Applications Explosion-proof distribution boxes are designed for hazardous locations where flammable gases, vapors, or dust may be present. Typical industries include: Oil and gas extraction and processing Chemical manufacturing Mining operations Marine engineering and offshore platforms Considerations for Selection Zone Classification: Ensure the box is rated for the specific hazardous zone (Zone 1, Zone 2, etc.).

Material and Durability: Aluminum or stainless steel enclosures are common for corrosion resistance. Certification Verification: Confirm IECEx, ATEX, or other relevant certifications. Local Support: Choose suppliers with local distribution or service capabilities in Uganda for maintenance and compliance support.

By selecting certified manufacturers and adhering to international standards, businesses in Uganda can ensure safe and reliable operation of electrical systems in hazardous environments.
