

Ukraine sells optical cables at high prices

Overview

The average export price for Ukrainian optical fiber cables in 2024 was notably higher than the average import price, though both saw declines from the previous year.

Key Takeaways

Optical cable prices in Ukraine range from approximately 7,629 UAH to 27,324 UAH per kilometer for standard single-mode cables, with specialized or bulk options varying widely from \$0.06 per meter to over \$3,000 for advanced equipment. Sample Prices from Ukrainian Suppliers: FinMark UT024-SM-15 single-mode dielectric, 24 fibers: 17,152 UAH/km; FinMark UT024-SM-15 LSZH, 24 fibers: 27,324 UAH/km; FinMark UT016-SM-15 LSZH, 16 fibers: 21,290 UAH/km; FinMark UT012-SM-48 self-supporting, 12 fibers: 17,954 UAH/km; FinMark UT012-SM-15, 12 fibers: 11,277 UAH/km; FinMark UT008-SM-15, 8 fibers: 13,015 UAH/km; FinMark UT004-SM-15, 4 fibers: 7,629 UAH/km; FinMark UT004-SM-15 LSZH, 4 fibers: 14,245 UAH/km. These prices are for standard single-mode fiber optic cables suitable for suspension, pipe laying, or soil installation, with options for LSZH (low-smoke, halogen-free) sheaths and armored protection.

Market Overview

Bulk and specialized cables: Prices vary significantly depending on fiber count, construction (armored, self-supporting), and application (FTTX, outdoor, or specialized industrial use). Price range: From \$0.06 per meter for bulk standard cables to over \$3,000 for specialized equipment like fusion splicers or high-end armored cables.

Suppliers: Leading suppliers in Ukraine include FinMark, Odeskabel, and other verified manufacturers offering G652D standard fibers, LSZH jackets, and armored options. **Ordering considerations:** Minimum order quantities (MOQs) vary from 1 km to 50 pieces depending on the supplier and cable type. High-volume buyers often benefit from lower per-meter costs and faster delivery.

Additional Notes

Prices are generally quoted per kilometer and may vary based on delivery location, currency fluctuations, and supplier promotions.

LSZ

H cables are recommended for indoor or urban installations due to fire safety standards. Armored or self-supporting cables are preferred for outdoor, aerial, or high-risk environments. For the most accurate and up-to-date pricing, it is advisable to contact suppliers directly or check online catalogs such as Elvis, NanoConnect, and Vinyla for current stock and delivery options.
