

Vanuatu s New Tray-Type Cable Trays

Overview

Vanuatu Cable Tray and Support Manufacturer Custom manufacturer of cabletrays made from aluminum, fiberglass reinforced plastic (FRP), galvanized and stainless steel materials.

Key Takeaways

Vanuatu now offers advanced cable tray systems including mesh, ladder, trough, and rigid tray types designed for durability, corrosion resistance, and flexible installation.

Overview of Cable Tray Types

Cable trays in Vanuatu are available in several modern configurations to suit different industrial and commercial needs: Mesh Cable Trays: These are lightweight, easy to install, and allow excellent ventilation for cables. Systems like EASYCONNECT are designed for durability and secure cable management. Ladder Type: Ideal for heavy-duty power and control cables, ladder trays provide strong support and allow easy cable access for maintenance.

Trough and Tray Types: These rigid structures support cables closely and are suitable for indoor and outdoor installations. They include straight sections, bends, tees, and four-way components, often with galvanization for corrosion resistance. Solid Bottom and Perforated Trays: These provide protection for sensitive cables from dust and debris while maintaining structural integrity.

Key Features and Materials

Modern cable trays in Vanuatu are designed to meet international standards (IEC 61537) and include features such as: Corrosion and moisture resistance, especially for coastal or humid environments. Flexible configuration with brackets, support arms, and hangers for easy installation and maintenance. Material options: Aluminum, galvanized steel, and FRP (fiber-reinforced plastic) for different load and environmental requirements.

Local Manufacturers and Suppliers

Several companies provide cable trays in Vanuatu: Brilltech Engineers Pvt. Ltd.: Offers standard and customized electrical cable trays with ISO-certified quality, catering to industrial and commercial applications.

VALDINO

X: Specializes in wire mesh cable trays and easy-installation accessories, emphasizing durability and secure cable management. Tianjin Jzoma Cable Tray Co., Ltd.: Supplies rigid tray, ladder, and mesh systems with galvanization treatment for indoor and outdoor use.

Considerations for Selection

When choosing a cable tray in Vanuatu, consider: Environmental conditions: Coastal areas require corrosion-resistant materials. Cable type and load: Heavy power cables may need ladder or trough trays, while lighter control or fiber optic cables can use mesh trays. Installation flexibility: Modular systems allow easier future expansion and maintenance.

Compliance: Ensure the system meets IEC standards and local safety regulations. These new cable tray systems in Vanuatu provide efficient, safe, and cost-effective solutions for organizing and protecting electrical cables in industrial, commercial, and infrastructure projects.
