Vietnam Low-Voltage Busbar Custom Manufacturer

Overview

Tai Sin Low Voltage Busbar Trunking System is a reliable and efficient electrical distribution system with sandwich construction and superior performance.

Key Takeaways

Vietnam hosts a range of reputable low-voltage busbar manufacturers, including Zhejiang Rutong Electric, Tai Sin Electric, Lim Kim Hai, and Shogo Vietnam, offering high-quality, customizable busbar systems for industrial and commercial applications. Key Manufacturers1. Zhejiang Rutong Electric Technology Co., Ltd.

Although headquartered in China, Rutong has a strong presence in Vietnam, providing low-voltage intensive busbars, high-protection busbars, and fire-resistant busbars. Their systems are designed for data centers, factories, and industrial zones, with corrosion-resistant and IP54/IP66 rated options suitable for Vietnam's humid and coastal environments. They also offer custom 3D CAD designs, project management, installation guidance, and maintenance services.

2. Tai Sin Electric (Vietnam) Tai Sin offers the LT Line I Busbar Trunking System, a low-voltage solution with sandwich construction, high electrical efficiency, low voltage drop, and mechanical strength. Their systems support 3P3W, 3P4W, 3P5W configurations, rated currents from 250A to 5000A (aluminum) and 400A to 5000A (copper), and operation voltages up to 1000V.

P ratings reach IP66, making them suitable for industrial and commercial installations. Tai Sin also provides site assessment, technical training, and local assembly support. 3.

Lim Kim Hai Vietnam Lim Kim Hai supplies Tai Sin Low Voltage Busbar Trunking Systems, emphasizing lightweight aluminum alloy housing, low magnetic material, and high flexibility. Their products are ideal for commercial and industrial electrical distribution, offering high efficiency, low voltage drop, and robust mechanical performance. 4.

Shogo Vietnam, JSC Located in Hung Yen Province, Shogo Vietnam specializes in R&D, production, and sales of busbars, including low-voltage systems for electric vehicles and high-voltage battery systems. They hold certifications such as ISO 9001: 2015, IATF 16949: 2016, ISO 14001: 2015, and ISO/IEC 17025: 2017, ensuring high-quality manufacturing standards and reliable pre-sale and after-sale support.

Supplier Network and Sourcing

According to Volza, Vietnam has 114 active busbar and busbar trunking system suppliers, exporting to over 136 buyers worldwide. This network allows procurement managers to filter suppliers by volume, product type, pricing, and reliability, ensuring access to high-quality, export-ready low-voltage busbar manufacturers.

Considerations for Selection

When choosing a Vietnamese low-voltage busbar manufacturer, consider: Compliance with international standards (TUV, GB/T7251. 1, ISO certifications)Customization capabilities for factory layouts or data center requirementsDurability and corrosion resistance for humid or coastal environmentsTechnical support and local assembly services for installation and maintenance These manufacturers provide a combination of high-quality products, engineering support, and local expertise, making them suitable for industrial, commercial, and data center applications in Vietnam.

Busbar Trunking System Manufacturer

Our system offers a full line of busbar trunking system to meet most requirements. Being the first locally tested busbar trunking system supplier, we are committed

Busbar Trunking System

It is a safe and robust power distribution system with high electrical efficiency, low voltage drop, high mechanical strength. Our system offers a full line of busbar trunking system to meet most requirements.

Custom EV Busbar Harness Active-cooled integrated busbar systems

We can customize wiring harness products for customers based on their specific needs and requirements to ensure that the product meets their unique requirements and specifications.

BUSWAY VIETNAM HOP TOAN

The E-Line KAP/KAM small power busbar range offers extremely economical solutions for the distribution of power in small enterprises and confection plants.

Custom EV Busbar Harness for Tin-Plated Copper Interconnect

SINNHONG, a premier China & Vietnam Manufacturer, specializes in OEM Electronics Manufacturing of high-performance EV Busbar Harnesses designed to meet these rigorous 2026 demands.

Busbar, Busbar trunking system Suppliers from Vietnam

Access 114 verified Busbar, Busbar Trunking System Suppliers in Vietnam with shipment-level prices, volumes, routes, buyer networks, and verified decision-maker contacts — all backed by bills-of-lading.

Electris

Busbar manufacturer. Custom Copper Bus-bars are an Electris speciality Bus bar systems are used for the distribution of electrical power in machinery, controls

Exhibitor information | FBC ASEAN Manufacturing Business Matching

Shogo Vietnam Joint Stock Company is one of the pioneering companies in Vietnam to produce Busbar conductive busbars, HV Cable high voltage conductors used in green energy industries. Especially in

Custom EV Busbar Harness for Tin-Plated Copper Interconnect

800V SiC inverter low-inductance laminated busbar IATF 16949 certified tin-plated copper busbar assembly Flexible braided copper busbar for EV motor vibration damping Integrated BMS busbar

Busbars for Electric Vehicles

Connor is a global supplier of custom-engineered busbars for electric vehicles, with vertically integrated manufacturing across the U.S., Mexico, China, Malaysia, and Tunisia. We support OEMs and Tier 1s

Custom Busbars

Busbars ensure safe, reliable power distribution at high and low voltages. Trust American Industrial for custom-stamped copper or aluminum busbars.

Busbar Manufacturing

Busbar Manufacturing At Datum, we specialise in custom, thin metal, busbar manufacturing, delivering precision copper, aluminium, nickel and nickel plated steel busbars for high-voltage battery systems,

Custom busbar solutions

What Is Custom Busbar? Custom busbars are electrical conductors designed and manufactured specifically according to the customer''s technical specifications, dimensions, materials,

Custom EV Busbar Harness for Robotic-Assembly Compatible Busbars

Skateboard platform integrated high-voltage busbar tray Robotic-assembly compatible battery harness modules Megawatt Charging System (MCS) high-current busbar components Pre-assembled battery

Custom 3D Formed High-Voltage Busbar 1200V ultra-high voltage

Custom Wire Harness Assembly Product type: 1200V SiC inverter compatible laminated busbar module Partial discharge-free insulated busbar for 800V EV platforms Cell-to-Body (CTB) integrated battery

Top 7 Busbar Manufacturers: Market Share & Analyst

Compare top busbar manufacturers including ABB, Siemens, and Schneider Electric. Analyze 14.5% CAGR trends, copper vs. aluminium shifts,
