

Waterproof junction box for buried optical cable

Overview

This junction box includes removable upper cover and base assembly with integrated M10X1.5 threaded cable entry studs. Multiple cable entry points accommodate various fiber optic cable configurations while maintaining waterproof integrity. Underground Splice Box with FRP Cover-13. 4 * 14 in Heavy-Duty Electrical Junction Box, PE Pull Distribution Pit Access, Deep Electrical Junction Box for Buried Wiring & Low Voltage. Purpose-built underground joint boxes feature waterproof seals (IP68 rating), corrosion-resistant materials, and structural reinforcement to withstand soil pressure. Our waterproof junction boxes give you the benefit of an innovative and durable product that ensures that electrical systems work perfectly even in damp and wet environments when installed outdoors. The Abox Pro XT junction box from the new Abox series has material properties that make it ideal for. The cap-type splice box is mainly designed for laying optical cables in overhead and tunnels. It does not meet the waterproof requirements of the regulations when used in direct-buried lines, but the moisture-proof effect in lines is better.
