What are some manufacturers of galvanized cable trays

Overview

This list of top 10 online B2B marketplaces and manufacturers will lead you to find your perfect cable trays based on your business requirements.

Key Takeaways

Leading manufacturers of galvanized cable trays include Eaton, Schneider Electric, Legrand, Atkore International, Marco, AFC, ABB, and Spina Group, offering durable and customizable solutions for industrial and commercial applications.

Global Leaders and Their Offerings

Eaton Corporation: Provides comprehensive galvanized cable tray systems for industrial, commercial, and utility projects worldwide, emphasizing durability and innovation. Schneider Electric: Offers robust cable management solutions suitable for challenging environments such as oil & gas and chemical plants. Legrand Group: Specializes in aesthetically appealing and corrosion-resistant galvanized trays for modern infrastructure.

Atkore International (Cope Cable Tray): Known for highly durable trays designed for petrochemical and power generation facilities, with options for custom configurations. Marco Cable Tray Systems: Focuses on versatile systems adaptable to complex installations with minimal on-site modifications.

AF

C Cable Systems: Balances durability and affordability, ideal for commercial projects with budget considerations.

AB

B: Manufactures a wide range of cable trays, including perforated, ladder, and channel trays, from facilities in Canada and Saudi Arabia, supporting rapid project timelines. Spina Group (Schiavetti Tekno): Italian manufacturer producing galvanized, stainless steel, and wire cable trays, offering custom sizes and compliance with European and international standards.

Product Types and Features

Manufacturers produce various types of galvanized cable trays to meet different industrial needs: Ladder trays: Provide strong support and ventilation for heavy cable loads. Perforated trays: Allow airflow and heat dissipation, suitable for sensitive electrical installations. Wire mesh trays: Lightweight, flexible, and easy to install, often with quick-connect systems.

Closed-bottom trays: Protect cables in environments requiring insulation or contamination prevention.

Material and Standards

Galvanized cable trays are typically made from galvanized steel with thicknesses around 1. 5 mm, offering corrosion resistance and long-term durability. Some manufacturers also provide stainless steel options.

Products comply with international standards such as UL and EN, ensuring safety and reliability.

Market Access and Customization

Many manufacturers offer customized solutions for specific project requirements, including size, load capacity, and finish.

B2

B platforms like Tradewheel and ThomasNet facilitate global sourcing, allowing buyers to communicate directly with manufacturers for bulk orders, pricing, and technical specifications. In summary, the galvanized cable tray market is served by a mix of global electrical solution providers and specialized manufacturers, offering a wide range of durable, customizable, and standards-compliant products for industrial, commercial, and infrastructure projects.
