Key Takeaways

Cable tray prices in Morocco typically range from $10 to $50 per meter, depending on material, type, and size.

Price Overview

The cost of cable trays in Morocco varies based on several factors: Material: Galvanized steel, stainless steel, aluminum, and fiberglass are common. Steel trays are generally more affordable, while stainless steel and fiberglass are more expensive due to durability and corrosion resistance. Type: Cable ladders, perforated trays, wire mesh trays, and trunking systems differ in price.

Wire mesh trays are often cheaper, while ladder and trunking systems may cost more. Size and Load Capacity: Wider trays or those designed to carry heavier cables cost more. Standard widths range from 100 mm to 600 mm, with prices increasing for larger sizes.

Fittings and Accessories: Elbows, tees, reducers, and supports add to the total cost. Fittings are generally cost-effective but should be included in budgeting.
