

What optical module should be used on the EG2 board

Overview

Caution: Please employ optional optical transceiver (SFP/Fixed Fiber) that complies with IEC 608251 and classified as Class 1 laser product. To connect the transceiver and LC cable, please follow below steps: Step 1. Insert the SFP transceiver module into the SFP slot as shown. The small form-factor pluggable (SFP) is a compact optical transceiver used in optical communications for both telecommunication and data communication applications. Applicable Modules Table 1: Applicable. Huawei EG2 D1EG2 TND1EG2 TNDD2GEOP700 020LWK6 2xGE optical interface board for Huawei OptiX PTN 950 960 910 PTN950 PTN960 PTN910 PTN 950: A 2U-high access device with flexible cards installed. PTN 950 NEs support various interfaces, such as E1, FE, GE, and STM-1 interfaces. PTN 950 NEs are highly. This allows a user to control and configure the iLight system using iCANsoft on a LAN network PC rather than by connecting directly into the network. Manufacturers of the terminal should notify users and operating personnel of the following safety information by incorporating these guideline into all manuals of the product. Otherwise, Quectel assumes no liability for customers' failure o reduce the risk of an. Control Wiring Setup Instructions Please Read This First The EG2-NA is built and tested to strict safety regulations.
