What size 200Mbps fiber optic wireless router should I buy

Overview

The best router for fiber internet is one that matches your plan speed, home size, and how you use your connection. Our top overall pick is the Netgear Nighthawk RS700S, a Wi-Fi 7 router built for multi-gig fiber plans that handles up to 200 devices across 3,500 square feet. In this blog post, we will dive into the world of routers, exploring their features, capabilities, and what makes them the perfect companion for your high-speed internet connection. These newer standards help your connection stay stable even when multiple devices are online. Therefore, to help you choose the best routers for fiber internet, the guide below consists of the top options for fiber internet. Popular internet service providers (ISPs) such as Cox, Spectrum, Xfinity, and fiber-optic providers like AT&T offer faster Internet speeds for expansive home WiFi networks.
