Which company is good for cable tray installation

Overview

OBO cable traysThe versatile OBO cable tray systems stand for efficiency, stability and safety. This applies to the screw-on variants as well as the cable.

Key Takeaways

Top companies for cable tray installation include Eaton, Network Cabling NYC, Legrand, Apex Tray, and New Tech Cabling, each offering high-quality products and professional installation services.

Eaton

Eaton provides B-Line series metallic cable ladder and tray systems designed for industrial and commercial applications. Their systems are engineered for strength, reduced structural steel requirements, and lower total installed cost. Eaton also offers CAD/BIM design tools, submittal builders, and extensive technical resources, making it easier to plan and install cable tray systems efficiently.

Network Cabling NYC

Based in New York, Network Cabling NYC specializes in voice, data, video, and fiber optic cabling, including cable tray installation. They handle projects of all sizes, from offices to data centers, and provide backbone and horizontal cabling, cable tray mounts, and full installation services. They use top-quality products and adhere to strict industry standards, ensuring reliable and safe installations.

Legrand

Legrand offers Cablofil® wire mesh cable trays and ladder systems, known for durability, ease of installation, and global reliability. Their products include prefab assemblies, fasteners, and accessories, suitable for heavy power and data cabling applications. Legrand emphasizes fast installation and dependable support, making them a strong choice for both standard and complex projects.

Apex Tray

Apex Tray provides guidance on selecting suppliers and emphasizes quality, compliance with NEMA and UL standards, and customization options. They highlight the importance of factory capabilities, experienced teams, and advanced design tools for both standard and custom cable tray solutions. Apex Tray also stresses post-installation support and project risk reduction, ensuring long-term value.

New Tech Cabling

Located in Midtown Manhattan, New Tech Cabling focuses on cable management and IT infrastructure optimization. They offer evaluation, planning, design, and deployment services, including cable tray installation. Their team uses AutoCAD® and Visio for precise project engineering and ensures efficient material management, relocation services, and future scalability.

Choosing the Right Company

When selecting a cable tray installation company, consider: Compliance with industry standards (NEMA, UL)Experience with your project type (industrial, commercial, IT)Customization capabilities for unique layouts or materialsPost-installation support and maintenance servicesDesign and planning tools to ensure accurate installation and reduced project risks These companies provide a combination of high-quality products, professional installation, and technical support, making them reliable choices for cable tray projects.
