# Which company makes trustworthy ladder-type cable trays

## Overview

Cable management | Cable tray | Cable ladder rack | EatonWith unmatched quality and service, we offer a variety of styles, materials and finishes available.

## Key Takeaways

Reliable ladder-type cable trays are offered by companies such as Eaton, ABB, Pemsa Cable Management, Thorne & Derrick, and Pioneer, all known for high-quality, durable, and standards-compliant products.

### Leading Manufacturers

Eaton provides the B-Line series metallic cable ladder systems, designed for superior strength-to-weight ratio and cost-effective installation. Their products support commercial and industrial applications, including data centers, and feature innovative designs for easy modification on-site.

AB

B manufactures cable ladder systems in Canada and Saudi Arabia, offering medium to ultra-heavy duty trays. Their open-design trays reduce moisture buildup, protect cable insulation, and allow flexible cable entry and exit points, ensuring long-term reliability. Pemsa Cable Management, S.

A. from Spain produces metal cable trays and rigid/flexible conduit systems. Their flagship Metatray product offers high impact and fire resistance, wide temperature tolerance, and digital tools for design and installation support. Thorne & Derrick in the UK supplies industrial and hazardous area electrical equipment, including cable ladders.

They provide technical support, proactive recommendations, and a global supply network, making them suitable for power, renewable energy, and petrochemical sectors. Pioneer offers ladder-type cable trays in steel, aluminum, and fiberglass, emphasizing durability, flexibility, and ventilation. Their trays support heavy cable loads, allow easy maintenance, and include accessories like bends, tees, and intersections for versatile installations.

### Key Features to Consider

Material: Galvanized steel, aluminum, stainless steel, or fiberglass for corrosion resistance and long-term durability. Load Capacity: Designed to support heavy cable bundles in industrial and commercial settings. Ventilation: Open ladder design promotes airflow, reducing heat buildup.

Flexibility: Modular designs and adjustable rungs allow customized cable routing. Compliance: Products meet international standards and regulatory requirements for safety and performance. These manufacturers are widely recognized for their quality, reliability, and technical support, making them suitable choices for both indoor and outdoor ladder-type cable tray installations across various industries.
