Which company should I choose for fiberglass cable trays

Overview

Top Fiberglass Cable Tray Manufacturers You Should KnowThis blog post will delve into the leading fiberglass cable tray manufacturers you should know, exam.

Key Takeaways

Leading companies in fiberglass cable trays include ALOIS Composites, Oglaend System Group, Enduro Composites, Friedrichs, Hallas Fiberglass, L-com Global Connectivity, Cablofil, and GangLong Fiberglass. Top Global and Regional ManufacturersALOIS Composites is a premier European producer of fiberglass-reinforced cable trays, known for high-quality pultruded profiles designed for corrosive environments. Their products are widely used in chemical plants, offshore platforms, and power utilities, offering superior strength with minimal weight and reduced installation costs.

Oglaend System Group is a global leader in composite cable management, supplying fiberglass trays to oil & gas, marine, and industrial sectors across more than 50 countries. Their trays are engineered for extreme conditions, providing excellent corrosion resistance and fire retardancy. Enduro Composites dominates the North American market, offering fiberglass-reinforced trays for utilities, transportation, and wastewater facilities.

Their products feature high dielectric properties and strength-to-weight ratios, ideal for high-voltage and coastal installations. Friedrichs is recognized for durable fiberglass cable trays suitable for harsh environments, including chemical processing, wastewater treatment, and oil and gas industries. They provide a variety of sizes and styles tailored to specific project needs.
