Which supplier offers the cheapest mesh cable trays

Overview

Cable Tray Cost Comparison Compare cable tray costs by type, material, and installation. Find the most cost-effective option for your project in this detai.

Key Takeaways

For budget-friendly cable mesh trays, Cabletiesandmore and Kable Kontrol on Amazon offer some of the lowest prices, starting as low as $0. 61 per foot.

Overview of Affordable Options

Cabletiesandmore Cabletiesandmore provides economical wire mesh cable trays with prices starting at $0. 61 per foot, making them one of the cheapest options available. They offer a variety of lengths (1'–10') and widths, including electro-zinc coated steel for corrosion resistance, and accessories for installation.

Kable Kontrol (Amazon) Kable Kontrol offers bulk packs of 10-foot wire mesh trays at competitive prices. For example, a 10-pack of 4" x 4" trays is available at a budget-friendly rate, suitable for network, AV, and fiber optic installations. These trays are zinc-plated steel, NEC approved, and designed for easy installation.

Grainger Grainger carries a wide selection of wire mesh cable trays, including basket-style trays. While prices vary, they provide reliable industrial-grade options with fast delivery and 24/7 support. Grainger is ideal for larger projects where quality and availability are important, though prices may be slightly higher than Cabletiesandmore or Amazon.

Platt Electric Supply Platt Electric Supply lists pre-galvanized steel wire mesh trays with prices ranging from $98 to $153 per section depending on size and depth. While not the cheapest, they offer a broad selection of sizes and immediate stock availability.

Key Considerations

Material and Coating: Zinc-plated or electro-zinc coated steel provides corrosion resistance at a low cost. Length and Width: Prices vary by tray dimensions; smaller trays are generally cheaper per foot. Bulk Purchase: Buying in bulk (e.g., 10-pack trays) can reduce the per-foot cost significantly.

Installation Accessories: Some suppliers include brackets and couplers, which may affect overall cost.

Recommendation

For the lowest cost per foot, Cabletiesandmore is the most economical choice, starting at $0. 61 per foot. For bulk orders with NEC approval and zinc-plated steel, Kable Kontrol via Amazon is a strong option.

Grainger and Platt Electric Supply are better suited for industrial-grade projects where immediate availability and a wide range of sizes are priorities.
